TASHFEEN MAHMUD

```
$ career --headline "Technical Writer & Information Architect — Developer Docs, Onboarding & AI-Assisted Content Workflows"
```

Langley, BC · tashfeenmahmud@gmail.com · linkedin.com/in/tashfeenca · github.com/tashfeenm

```
release: v11.11.0 stable
uptime:  16+ yrs shipping docs
focus:   onboarding · API docs
scope: docs · QA · release · AI
```

IMPACT DASHBOARD

220 → 35
monthly support demos after enablement rebuild (Hyperview)

–53%
draft-to-review cycle time across BMC Helix documentation (BMC)

$140K+/yr
saved consolidating documentation platforms (Affirm)

1B+/yr
transactions on payment APIs I designed, owned, and documented (Hyperwallet)

up to –80%
manual doc-production effort, agentic automation (Samsung)

> ★ **Built for people and AI agents**
> Taxonomies, docs-as-code, release lifecycles and validation workflows that both can rely on.

STACK

release & program
Jira (Zephyr) · Asana · Salesforce · Odoo · release calendars · defect lifecycle

docs-as-code & knowledge systems
Git/GitHub · Hugo · Sphinx · Confluence · Glean · Markdown · DITA · OpenAPI

qa & automation
Playwright · Cypress · Selenium · Postman/Newman · ReadyAPI

ai workflows
Claude Code (agentic workflows, skills, MCP) · OpenAI Codex · GPT/Gemini APIs · Python · TypeScript · SQL

BEYOND THE BUILD

Guest, API The Docs podcast — writers as AI orchestrators (2026)

Screenwriter, "Why Knot" — documentary on Netflix

Independent research — LLM memory & retrieval; more publishing soon

Projects — latch-ci · what-changed · read-better · hoist (OSS, MIT) · trading data platform · tax-redact (private)

EDUCATION

B.Sc. Computer Engineering, North South U · **M.A. English**, UBC (cognitive linguistics)

OpenAPI Certificate '24 · Stanford AI Bootcamp '23 · Elements of AI, U. Helsinki '22

RELEASE HISTORY — recent releases in full; earlier versions abridged, as changelogs should be

v11.0 Samsung Research Canada [AI] [docs-as-code] 2024 – now

Professional III — Technical Writing, Developer Onboarding & AI Enablement

- Own the **documentation release lifecycle for Samsung Knox APIs & Samsung Education** — synced across parallel versions
- Built an AI-assisted **content pipeline** — triages Jira tickets, resolves pre-approved tiers, drafts PRs for the rest, ships only on editor sign-off — manual effort **up to –80%**
- **API Governance** committee (1 of 3) · org-wide AI skills/tools repo maintainer · standing up an **AI governance guild**
- YAML/MD/JSON parsing skills for agents — tokens **–45%+**, accuracy **+52%+**

v10.0 ICBC *(via Serendip Consulting)* [public sector] 2023 – 2024

Lead Procedure Analyst

- Led 6 analysts on procedures & writing guidelines for the org-wide **SAP SuccessFactors (HR)** rollout; introduced Copilot-based drafting workflows

v9.0 Affirm [enablement] [fintech] 2022 – 2023

Information Architect

- Directed documentation, support & training across HR, engineering & L&D platforms; launched org-wide engineering onboarding **(rated 9.8/10)** and Thor (internal build system) onboarding; maintained regulatory-compliant policies for payment plans and insurance
- Consolidated fragmented docs platforms into one source of truth with Product leadership (**$140K+/yr saved**); IA & taxonomy for a unified search hub

v8.0 Hyperview [DCIM] [QA] [release] 2020 – 2022

Lead, Documentation & QA — Data Center Infrastructure Management platform

- Owned end-to-end **deployment, admin & API documentation for DCIM software** — datacenter assets, power, cooling & capacity — for enterprise & government customers
- Led **pre-release QA validation & release coordination** (team of up to 11); API design & testing practices cut test cycles **33%**; ran the defect lifecycle
- Led ISO / SOC 2 / multi-jurisdiction compliance reviews; rebuilt **Hyperview University** — support demos **220 → 35/mo**, engagement +31%

v7.0 Electronic Arts [platform] 2019 – 2020

Information Architect — Frostbite Engine

- Led documentation & education strategy for the Frostbite engine across cross-functional projects of 2–20 with Product, Engineering & Domain leadership
- Maintained **versioned content across parallel engine branches**; grew docs team **2 → 6**; revamped developer onboarding, informed by developer surveys and analytics

v4.0 Hyperwallet / PayPal [fintech] [APIs] 2014 – 2016

Business Analyst / Technical Writer — payments fintech (acquired by PayPal)

- Product owner for the platform's REST APIs — designed them and directed **API documentation, developer-portal engineering & test-case management**; **1B+ transactions/yr** (teams of 2–10)
- Delivered programs meeting **SOC 1/2, PCI, ISO 27001, Sec. 508 & GDPR**; identity verification with a 0% false-positive rate

EARLIER RELEASES — abridged

v6.0	**BMC Software** — Lead Info Developer, BMC Helix: content teams 3–10 across 2–7 products; draft-to-review –53%	2017–18
v5.0	**CA Technologies** — Principal Info Engineer: content-platform migration; API-docs workshops for 120+ writers	2016–17
v3.0	**FDM Software** — Supervisor, Quality & Release Management: build, release, QA, docs & onboarding end-to-end for 4.5 yrs; FDM Language +15% annual revenue; NFIRS compliance	2009–14
